SATHISH REDDY JILLELA

Full-Stack Software Developer | AI & Machine Learning Enthusiast

India | jillelasathishreddy@gmail.com | linkedin.com/in/sathish-reddy-jillela | github.com/jillelasathishreddy-commits

PROFESSIONAL SUMMARY

Proactive and detail-oriented Computer Science student and Full-Stack Developer with hands-on expertise building responsive modern web applications using React, Node.js, Express, and MongoDB. Passionate about artificial intelligence, Retrieval-Augmented Generation (RAG), and geospatial data concepts (GeoAI). Committed to engineering clean, accessible, high-performance code and continuously expanding technical acumen.

TECHNICAL SKILLS

- **Frontend Development:** React.js 19, JavaScript (ES6+), HTML5, CSS3, Modern Responsive Layouts, Framer Motion
- **Backend & REST APIs:** Node.js, Express.js, RESTful Architecture, API Design, Authentication, Middleware
- **Databases & Storage:** MongoDB, Mongoose ODM, NoSQL Database Modeling, CRUD Operations
- **AI, ML & Geospatial:** Python, Retrieval-Augmented Generation (RAG), LLM Workflows, GIS Fundamentals, GeoAI Concepts
- **Developer Tools & Workflow:**Git, GitHub, Vite, Postman, npm, VS Code, Agile Pair Programming, Component Testing

FEATURED TECHNICAL PROJECTS

Personal Portfolio & Interactive Showcase

React 19, Vite, Framer Motion, Vanilla CSS

- Architected a responsive light-theme portfolio featuring fluid component animations, category filtering, and strict React 19 standards.
- Engineered asynchronous contact workflow with live submission handling and automated email application fallback mechanism.

Full-Stack E-Commerce Platform

MERN Stack (MongoDB, Express, React, Node.js)

- Built a scalable web store incorporating user authentication, product catalog management, dynamic cart updates, and checkout flow.
- Designed modular Express backend routes and MongoDB database schemas with Mongoose data validation.

Interactive Programming Learning Application

React, Node.js, Express, REST APIs

- Created an educational web app delivering structured lessons, interactive code quizzes, and milestone achievement tracking.
- Implemented responsive user dashboard with clean component state management and optimized rendering.

RAG Intelligent Learning Assistant & GeoAI Explorer

Python, LLMs, RAG, GIS Concepts

- Constructed document-grounded AI assistant concepts leveraging vector retrieval and prompt templates to answer curriculum queries.
- Explored geospatial datasets and GIS techniques to integrate spatial analysis with machine learning pipelines.

EDUCATION

Bachelor of Science in Computer Science (B.Sc. CS)

India | Expected Graduation: 2026

- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies, Software Engineering Principles, Computer Networks
